What is a community cat?

Community cats, also called feral or outdoor cats, are unowned cats who live outdoors. Like indoor cats, they belong to the domestic cat species (*Felis catus*). However, community cats are generally not socialized, or friendly, to people, and are therefore unadoptable. They live full, healthy lives with their feline families, called colonies, in their outdoor homes.

What is Trap-Neuter-Return?

In a Trap-Neuter-Return (TNR) program, community cats are humanely trapped, brought to a veterinarian to be spayed or neutered, vaccinated, and eartipped (the universal sign that a cat has been part of a TNR program), and then returned to their outdoor homes. Cats and kittens who are socialized can be adopted into homes.

TNR improves cats' lives and provides an effective, humane, and collaborative way for communities to coexist with cats.

Why not trap and remove?

Animal control's traditional approach has been to catch and kill community cats. While this may temporarily reduce the number of community cats in a given area, it is ultimately counterproductive, as the population of cats rebounds. Due to the Vacuum Effect—which has been documented worldwide in many species—untrapped cats continue to breed, and other cats move into the newly available territory.

Advantages of TNR

- No new kittens are born.
- It stops behaviors associated with mating, including spraying, yowling, and fighting, and ensures community cats are vaccinated.
- It stops the breeding cycle and keeps other cats from moving into the territory.
- It reduces the number of cats and kittens entering shelters, which results in lower euthanasia rates.

What should I do if I find a community cat?

- First, check to see if the cat's left ear is tipped. If so, the cat has already been spayed or neutered.
- If the cat's ear is not already tipped, the best thing to do is borrow a humane trap and conduct TNR.

Local animal welfare organizations and your neighbors can help!

- Cats who are socialized can be adopted into homes after they have been spayed or neutered.

What should I do if I find kittens?

- If possible, the best place for kittens younger than eight weeks old is with their mother.
- Kittens between two to four months old can still be socialized, and therefore may be adopted into homes after being spayed or neutered.
- Friendly kittens can be adopted into homes after they are spayed or neutered.
- Feral kittens too old to be socialized should be trapped, spayed or neutered, vaccinated, eartipped, and returned to their outdoor homes.

Why shouldn't I take community cats to a shelter?

Because they are unsocialized, community cats can't live indoors with people, and are therefore unadoptable. Community cats should **not** be taken to shelters—nationally, virtually 100 percent of community cats are killed in shelters. TNR is the humane, effective, mainstream approach to addressing community cat populations.

TNR stops this cycle!

Friends of Ridenour - Phase 2

Friends of Ridenour started to act as a public channel and volunteer group to organize the community to aid in the development, planning, upkeep and promotion of the area of Ridenour Lake.

Friends of Ridenour would like to ask City Council for permission to construct a Bike Skills Park and RC Racetrack at Ridenour Lake. The park would be contained in the small grass area between the Dog Park parking lot and the creek, roughly 150'x85' unused open space. The park would consist of three main features: Skills Line, Pump Track and Jump Line

Skills Line consists of a relatively straight path with low consequence obstacles of increasing difficulty. The skills line is designed to teach riders how to ride up and over different obstacles they may encounter on a mountain bike trail system.

Pump Track is a circuit of rollers, banked turns (berms) and features designed to be ridden completely by riders "pumping" - meaning to create momentum by up and down body movements, instead of pedaling or pushing. Most pump tracks are roughly oval, with cross-over lines in a continuous loop. Pump tracks are relatively simple to use and cheap to construct, and cater to a wide variety of rider skill levels.

Jump Line consists of small to medium dirt jumps to teach riders more advanced techniques of mountain biking or bmx racing.

(RC Racetrack) A pump track and remote control car racetrack are very similar and we have many rc enthusiast in the local area willing to help build the course for multi-use. We would only allow electric rc vehicles due to noise.

An outdoor activities report conducted in 2014 found that there are over 46 million people road biking, mountain biking, or riding BMX in the United States. That means 16% of all Americans are active cyclists, so we need more places to ride.

Cycling is one of the most popular sports. Many countries have a well-developed cycling path network, but are missing places where adults and children can practice their riding skills in a safe environment. A pump track will stand out from conventional sports in other areas and aid in local tourism. Compared to other sports facilities, building a pump track is extremely economical and easy on your budget. Riding pump track is silent and therefore pleasant for the residents. A pump track is perceived as a playground for young and old.

Costs - Bike Skills Park and RC Racetrack

\$4,500	Quality fill and shaping dirt, pre-screened.
\$1,000	Signage (bike park sign, map and usage policy)
\$2,000	Landscaping (various rock-scaping, vegetation and sprinklers)
\$500	Trail Cameras (5-6 monitor both usage and vandalism)
\$500	Miscellaneous (stakes, marking tape, tarps, gasoline, led lighting)
Total \$8,500	

We have volunteers ready to start immediately and would love to complete in time to enjoy this summer! I believe this addition to the park would pay for itself in just one year from added tourism from our surrounding areas. I have attached two letters of intent to use and volunteer to help build the park. Proposed park would be an estimated value of \$60,000+.

Closest Pump Track is Snowshoe and closest RC Track is Lavalette.

"Bike parks do for bicycling what climbing gyms have done for climbing, with the potential to boost ridership. "The whole idea of a purpose-built facility is allowing people to progress their skills. This makes a huge difference in opening the mountain bike experience to groups of people who have never really felt connected to it before".

WVICL

The National Interscholastic Cycling Association (NICA) was founded in 2009 in California as a youth sports league. NICA was founded with 5 core values: Inclusivity, Equality, Strong Minds, Strong Bodies, Strong Character through interscholastic cycling. NICA is a 501(c) (3) nonprofit organization with 21 Leagues across the United States.

West Virginia Interscholastic Cycling league was founded by Cassie Smith, an avid mountain bike rider, racer, mother, and outdoor enthusiast. With Cassie's dedication, our inaugural season in 2018 had 11 teams across the state. This year, we are proud to announce we have grown our team numbers to 12, Huntington WV as the newest addition to our ever-growing league!

Our Vision: Enable every WV teen to strengthen body, mind, and character in the most equal and inclusive way through the life-long sport of cycling.

Our Mission: Establish a fun, enduring, and relevant 6th through 12th grade mountain bike program to improve the lives of West Virginia teens and their families.

NICA has wonderful programs to engage our student athletes past mountain bike racing and developing their skills. GRiT (Girls Riding Together) is a program designed just for our female student athletes. In our second year we are having a GRiT camp at Big Bear Lake Campground. This program focuses on girls riding together, having fun, developing their bike handling skills with some amazing female coaches, group rides, campfires, swimming, and tons of great food and fellowship. Our newly released, Teen Trail Corps, gives students the opportunity to participate in trail advocacy and programs in their communities. Our students earn merit badges through NICA helping to maintain, build new trail, and advocate for their local trail systems in their communities.

I am the Head Coach and Team Director of the local NICA team, Kanawha River Wildcats. We have 22 student athletes on our team and hope to pick up more before our race season officially starts in July 2019. One of the most unique aspects of our team, nearly every single parent or parents have picked up a bike and are riding with the kids.

As the head coach of the Kanawha River Wildcats, which serves Kanawha and Putnam Counties, we are itching to build new, exciting trails and features for our students, coaches, and friends and family to ride and improve their bike confidence and bike handling skills. The idea of having a skills specific park where our team can come to a central location and access, is extremely exciting! We travel all over the state to experience riding on different terrain and to explore different areas within our communities and state. Not only will our team directly benefit from having a skills park near, it will be a great addition to the wonderful trail system at Ridenour Lake. When we travel to a destination, it truly is a family event, we eat in the community as a group, and make a point to visit the local bike shop in that area.

I truly hope you will consider allowing our team to assist Tracy Toler and Friends of Ridenour Lake to build a multi-use skills park.

Thank you for your time!

Sincerely,

Mia W. Fox

Mayor David Casebolt &
Nitro City Council
497 1st Avenue South
Nitro, WV 25143

Dear Mayor Casebolt and City Council:

I am writing this letter in support of Mr. Tracy Toler's proposed project for a bump bike trail. In addition to the bike use, this trail can be utilized for Radio-Controlled cars and races.

As the popularity of the RC Car hobby increases, more and more youths and families are getting involved together. As we know our community needs more opportunities and activities to keep our youth entertained and away from the negative influences of drugs.

As a local business owner of Nitro Hobby and Craft, I see the enthusiasm of families working and playing together with RC Cars, trains, and crafts. I also know that this area does not have any available tracks for the growing RC hobbyists. I support this effort and will help promote the venue to our customer base.

You can reach me at (304) 755-4304 if you have any questions or would like more information on RC Cars and activities. Thank you for your time and attention. Let us make this project and reality and bring new attention to Nitro and its efforts to be a fun place to live and work.

Sincerely,

Sherri & Chuck Willey

- **ARTICLE 1760 - LAND REUSE AUTHORITY**

- **1760.01 - SHORT TITLE.**

This article shall be known and may be cited as the "land reuse act".

- **1760.02 - PURPOSE.**

The City of Nitro is a member of the Municipal Home Rule Pilot Program enacted by the West Virginia Legislature. W. Va. Code § 8-1-5a [2007]. The legislation authorizes pilot municipalities to exercise broad-based home rule to improve urban and state development. The legislation establishes a framework for municipalities to explore new ideas to see if they can or should be implemented on a statewide basis.

The City of Nitro finds that there exists a continuing need to strengthen and revitalize the economy and that it is in the best interests of the city to assemble or dispose of public property in a coordinated manner to foster the development of that property and to promote economic growth. It is declared to be a valid public purpose for a land reuse authority created under this article to acquire, assemble, dispose of, and quiet title to property. It is further declared to be a valid public purpose for the land bank fast track authority created under this article to provide for the financing of the acquisition, assembly, disposition, and quieting of title to property, and to exercise other powers granted under this article. The City of Nitro finds that the land bank fast track authority and powers conferred by this article constitute a necessary program and serve a necessary public purpose.

- (c) *Methods of acquisition.* The authority may acquire real property or interests in real property by any means on terms and conditions and in a manner it considers proper: Provided, that the authority may not acquire any interest in oil, gas or minerals which have been severed from the realty.
